

ROAD TO
SUCCESS

Get to know our new and improved Road to Success program!

Road to Success has partnered with Beanstack to update and improve the current elementary reading program. Check out the additional features we will welcome in the 2022-23 school year!

Reading Challenges

Teachers can have their classes participate in monthly, national reading challenges to motivate their students via friendly competition. They can even make their own reading challenges!

Drive Engagement

On top of available food and activity vouchers acting as incentives, features like streaks, achievements, and leaderboards help keep students engaged all year.

Easy Access

Students can log their reading online or on the Beanstack mobile app. The mobile app contains an ISBN scanner that makes it even easier to log their books.

Reported Data

Teachers can have their classes participate in monthly, national reading challenges to motivate their students via friendly competition. They can even make their own reading challenges!

Secure Single Sign On

Beanstack integrates with leading SSO and rostering options, like Clever and Classlink, allowing your students to log in seamlessly and securely.

Fundraisers

Schools can host fundraisers via Beanstack - Students will log reading as their family, friends, and local businesses pledge dollars the number of minutes read. 90% of funds will go directly to your school.

Road to Success FAQ

Q: What is the Road to Success program?

A: Road to Success is a free reading program for elementary school students in the state of Utah. It is a program of Ken Garff's Success in Education Foundation. The goal of Road to Success is to increase the literacy skills of K-5 students. The program incentivizes students to log their reading minutes and sets goals for them to earn food and activity vouchers as prizes.

Q: How much will it cost to use the Road to Success program in my district/school/class?

A: Thanks to the generous donations from Ken Garff, Zions Bank, Mountain America Credit Union, Axis41, and other sponsors, Road to Success is completely FREE to use for all elementary schools in Utah!

Q: What is Beanstack?

A: Beanstack is the new developer Road to Success has partnered with to create a new and improved platform for Road to Success users. Beanstack is the name of the new platform that Road to Success uses, but the overall elementary reading program's name is still Road to Success.

Q: How is Road to Success changing its program with Beanstack?

A: Road to Success has partnered with Beanstack to create an improved, user-friendly platform for teachers, students and parents. Some updates will include: integration with leading SSO options, like Clever and Classlink, so logging into Road to Success is seamless and secure for all; an insight dashboard is provided for teachers with data reporting on students' reading activity and interests; there is easier access to the program via the user-friendly app and website; Beanstack provides national reading challenges that schools or classrooms can participate in, and the option for teachers to create their own reading challenges too!

Q: Why would I want my district/school/class to use Road to Success?

A: Not only does Road to Success provide resources for students to log their reading, teachers to see their students' progress, and free reading challenges, but Road to Success helps to motivate students to read through incentives like food and activity vouchers. The more minutes a student logs onto the Beanstack platform, the closer that student gets to redeeming a prize!

Q: What is the timeline for this new Road to Success program?

A: Registration for the 2022-23 school year runs from February 1 - April 15, 2022. Once a school has registered, Beanstack will reach out to your district tech specialist to connect the student roster system of your choice to their platform. Sometimes, districts will take extra time to do so in order to get approval for the new platform. Our goal is to have every school connected or on the path to being connected by the end of the 2021-22 school year. Before the 2022-23 school year begins, prizes will be delivered to each participating school to hand out to their students once they earn prizes. On September 1, 2022, each school will receive a Zoom link to attend a virtual training on the new platform, all interested parties will be invited to this. More details will be available with specific dates towards the end of the 2021-22 school year.

Q: How do I register my district/school/class for the 2022-23 Road to Success program?

A: Interested parties may register their district, schools or classrooms in this Google Form. Registration for the 2022-23 school year ends April 15, 2022 and there are limited spots available in the program, so we encourage you to register as soon as possible.

Q: Who can I contact if I have more questions?

A: Please email rtsutah@gmail.com with any other questions about the Road to Success program.
